PROFESSIONAL SUMMARY

Junior Front-End Developer and Media Sciences student with practical experience building modern, responsive web interfaces. Proficient in HTML5, CSS3, JavaScript, React.js, Angular, and Bootstrap. Strong focus on clean UI implementation, component-based architecture, and responsive design principles through polished personal and hands-on projects.

SELECTED PROJECTS

TechZone (React.js • JavaScript • Bootstrap)

- Developed a modern e-commerce interface designed for PC components and tech accessories.
- Built reusable React components and responsive layouts ensuring a seamless shopping experience.
- Applied Bootstrap and front-end best practices to maintain UI consistency across all viewports.

SkillForge (Angular • TypeScript)

- Engineered an interactive learning and productivity platform featuring dashboard-based UI.
- Implemented responsive sections for course progress tracking, tasks, and intuitive user workflows.

Bakery (HTML5 • CSS3 • Font Awesome)

- Created a fully responsive business website showcasing products, special offers, galleries, and contact forms.
- Focused on semantic HTML markup, responsive CSS layouts, and an accessible user experience.
